Main Executive Conference Room | ClickShare for macOS

Summary

This is a tutorial on how to connect your Mac computer to ClickShare to display your screen on TV in the Main Executive Conference Room.

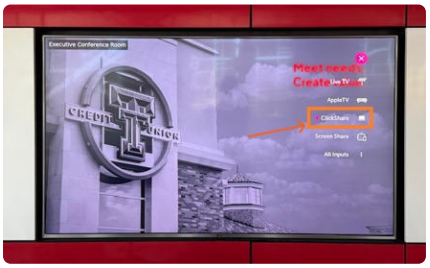

Prerequisites

An adapter may be needed for dongle compatibility depending on your device.

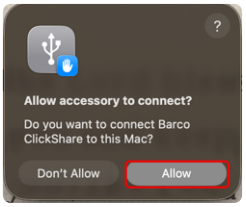

Ensure you have permissions for external USB devices. Submit an IT support ticket or call 806-767-0418 to request assistance/access if necessary.

Instructions

1. Turn on TV. Ensure the TV source is selected to ClickShare.

2. Connect the Barco ClickShare dongle to your USB-C port. **Allow** this accessory to connect.

3. Once connected, open the ClickShare drive that appears on your desktop.

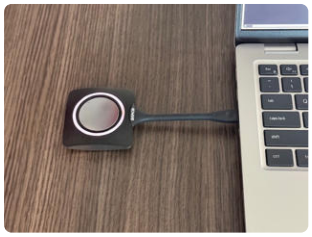

4. Open “ClickShare_for_MacOSX” to launch ClickShare.

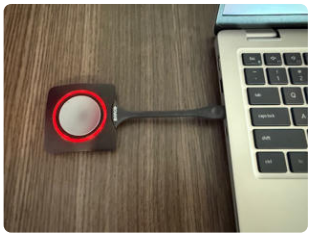

5. When prompted for screen-sharing permission:
    a. Open **System Settings**
    b. Select **Privacy & Security**
    c. Select **Screen & System Audio Recording** (this may appear as **Screen Recording** on older macOS versions)
    d. Enable ClickShare

6. If prompted, authenticate with administrator credentials.

7. Select **Quit & Reopen** if macOS prompts you to restart ClickShare.

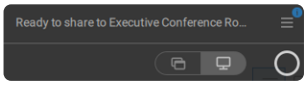

8. Pressing the silver button will stream your computer screen to the TV. The ring will turn red.

9. You will see the app in your Mac taskbar along with the ClickShare execution notification.

10. Right-click the ClickShare drive and **Eject** when done.
